

Advanced Change Notification – CN-01032012-1Re: **New SciLog Manufacturing Location****January 3, 2012****Dear SciLog Customer,**

As the world's largest manufacturer of pre-calibrated single-use sensors for bioprocessing, it is my pleasure to announce SciLog's move into a new larger corporate facility. This move is to address the growth in global demand for SciLog's proprietary products, systems, software and services. In our new facility we will have expanded manufacturing, customer service and support operations, as well as supply chain management teams. This investment is our way to ensure your complete satisfaction now and in the future.

Products Affected:

All SciLog products currently manufactured at 8845 South Greenview Drive in Middleton, WI 53562 will be manufactured at our new facility in accordance with the schedule below. The date code of product manufactured at our new facility will be identifiable by product serial number and can be used for traceability of where the product was manufactured. **The only change to labeling and packaging of products at this time will be to reflect the new address.** For a comprehensive list of products and supporting information please visit www.scilog.com/change-notification

Schedule of Change:

All laboratory scale and process scale products will be manufactured at 801 Deming Way beginning in March, 2012. To assure matched or improved environmental parameters are met, production of pre-calibrated disposable sensors and manifolds will begin manufacture in April 2012. The new facility will house an ISO Class 8 clean zone assembly, calibration and packaging environment that is governed by ISO 9001:2008 and ISO 14644-1:1999 standards. Please make note of the address changes listed below.

New Corporate Address:

SciLog Inc.
608-824-0500 (Office)
608-824-0509 (Fax)
801 Deming Way,
Madison, WI 53717-1918

New Shipping Address:

SciLog Inc.
608-824-0503 (Shipping/Receiving)
608-824-0509 (Fax)
8446 Excelsior Drive,
Madison, WI 53717

Customer Impact and Response:

We will work with customers to review current orders and forecasts to assure no interruptions in delivery. SciLog has increased stock levels to cover the transition period and do not foresee any impact on our ability to supply product to our customers and distributors. SciLog has a comprehensive business continuity plan and we welcome customer audits after April 2012. To request an audit please contact quality@scilog.com

We thank you for continued use of SciLog's bioprocessing solutions and we look forward to assisting you with these product changes. Please feel free to contact our quality assurance staff at quality@scilog.com or at 1-800-955-1993 for further assistance.

John McCluskey, MSM
